

ENVIRONMENTAL POLICY

Buch & Holm offers guidance, sale, support and service of equipment to laboratories and the industry.

Our address is Marielundvej 39, DK-2730 Herlev.

Buch & Holm will continuously, actively and systematically work on minimising our environmental impact whenever it is financially viable and technically possible.

The aim of our environmental policy is to:

- Reduce the energy consumption under our own auspices.
- Avoid any undesirable conduct under our own auspices, which may damage the environment.
- Reduce the total environmental impact from transport of goods and equipment.

The company is committed to:

- Ensure that the employees know and understand the environmental policy and act accordingly.
- Outline the environmental considerations, renew the action plans annually and follow up on these on an everyday basis.
- Ensure that the employees know the action plans and their own impact on the environment.
- Continuously measure and follow up on the energy consumption under the auspices of the company.
- Comply with all applicable rules and regulations.

Mikkel Holm, March 13th 2018
